introduction

After the approximately one-year survey, the case ended with a confirmation procedure.

For marriage agencies that deal with IBJ and other associations

- (1) Restrictions for arranged marriage meetings with directly managed lounge businesses
- (2) Requesting that the businesses be affiliated with IBJ alone

They likely violated the Act on Prohibition of Private Monopolization and Maintenance of Fair Trade

Effects expected from self-improvement

- (1) Increase in the number of arranged marriage meetings as the arranged marriage restrictions are lifted
- (2) Increase in the number of IBJ franchisees, as the restrictions for multiple memberships are lifted
- (3) Compliance awareness improves throughout IBJ

^{*} Confirmation procedure is a system for business operators to make a pact with the Japan Fair Trade Commission to autonomously resolve the suspicion of violating the Act on Prohibition of Private Monopolization and Maintenance of Fair Trade. A confirmation plan is a plan that the business operator establishes and plans to execute to resolve the suspicion autonomously. We will not be subject to a cease and desist order, or payment of the surcharge.
